
Healthy Parenting in Tough Times

Join Matthew Masiello, MD, MPH, FAAP, as he presents on [Healthy Parenting in Tough Times](#). He will examine the state of children in Somerset County, bullying prevention, what parents can do in the current times and much more!

About the speaker:

Dr. Masiello is a pediatrician with additional training in critical care medicine. He received his masters of public health degree from the George Washington School of Public Health and Health Services. He serves as Director of the Center for Health Promotion and Disease Prevention at the Windber Research Institute. His pediatric practice consists of supporting Somerset Hospital's pediatric program. He also serves as Medical Director of the University of Pittsburgh Johnstown Health Clinic.

Over the past two decades, Dr. Masiello has had the opportunity to comment on health promotion and disease prevention issues at various national and international forums and through numerous publications and reports. He serves on the governance board of the World Health Organization Health Promoting Hospital Network.
